Thanks Charissa and Tracy!

Elaine sent me a bunch of stuff (I presume she cc'd you & Tracy, but will check so you have what she sent me). Hoping that Elaine can help navigate what of our prior comments are still relevant – I hope the approach of pulling together comments from what we've submitted in the past that are still relevant can help streamline as well.

Talk with you at 3pm on Tuesday – thanks for shifting ☺

Hi Linda,

Thanks for your message regarding the quick turnover for comments for this PN! I know it's a tight schedule and I know you are super swamped. On the positive side, Tracy is kindly completing a lot of work/ mentoring me on this project (thanks Tracy). Also, a very good point that was previously pointed out to me was that we have previously commented on this project during the draft EIS and on the final EIS.

Thus, although we have a tight schedule, much of the work/ comments have already been completed. Thus, perhaps it is more of pulling these comments together and making sure we are not forgetting to include anything.

Hope that is a bit of a relief ☺!

Thanks!

Cheers,
Charissa
